

Safe-T-Step™

What do injuries cost each year?

In 2006 the U.S. Bureau of Labor Statistics stated that falls with contact to the ground was the second most frequent injury to truck drivers, it accounted for the longest periods that drivers missed days from work! Drivers missed an average of 14 days of work due to injury, the HIGHEST of any professional group.

If your truck sits idle for 14 days, what does it cost you? The *Safe-T-Step* costs under \$100.

The report stated that there were 66,040 injuries in 2006 to truck drivers.

Statistically, sooner or later an injury will affect your bottom line.

“We outfitted our trucks with these updated models and soon drivers across the eastern seaboard began asking our guys where they could buy them.”~ quote by a satisfied user.

Rollerbed Systems LLC is an official distributor of the “Safe T Steps” product range.

Corporate Office & Manufacturing:

202 West Sixth Street,

West Wyoming, PA 18644.
